

GIVE YOUR SON OR DAUGHTER THE VERY BEST CHANCE OF FINDING, AND SECURING, THEIR FAVOURITE JOB...

Due to Covid 19, the job market at all levels, is likely to be more competitive than we have ever seen previously. Entry level, graduate and first job-change level roles, will be no exception to this, and could be one of, if not, the most competitive of all. All parents will undoubtedly offer advice to their own sons and daughters, about how best to construct their cv, approach their job search, perform at interview and start their career. This scenario presents two key challenges:

- 1) How open are our children, to taking parent's advice, on this highly emotional topic?
- 2) Do parents have the time, bandwidth and expertise, to be the best advisors for their own children?

Sometimes an experienced third party may be better qualified, and better placed, to impart this type of advice.

At Best Talent, we have the experience, expertise and ability to help. We have a team of professionals, who have backgrounds in recruitment, talent acquisition, HR, leadership development and general management. We all have experience of working in large corporates (such as Mars, Vodafone, Hewlett Packard, The Red Cross, Barclaycard and Michael Page), SME and running our own business.

The programme we have put together will cover the following topics:

- Goal Setting
- Networking
- Your CV
- Applications
- Interview Preparation
- The Interview
- Follow Up / Feedback
- Learnings

Workshop / Webinar

We offer this multi session workshop / webinar over two days. Each session is up to 2 hours (3-4 hours in total for the two sessions). These are interactive sessions, with questions from the floor helping to drive the discussion, rather than a 'sit and listen to what I tell you' type workshop.

The charge is £75 per head to attend the on-line workshops/webinars.

For more information, or to secure a place on a workshop,
please contact Mike Best:
