Workshop/Webinar

The workshop/webinar is split into two sessions, each session lasting 1-2 hours, depending on how many questions we get from the delegates.

The cost to attend the workshop/webinar is **£75 per person**

Psychometric test with feedback session

There is an on-line test, which will help you to understand your working preferences, and help us to give you some guidance as to some career options that will best suit you. This is a test which you do remotely, on-line. There is then a follow up feedback session, which is a one-to-one remote video call, to explain the output from the test. (approx. 1hr). The results need qualified interpretation, to extract your working preferences, and translate these into meaningful advice as regards job type, size of organisation, sectors and target organisations.

The charge is **£280 per person** (ie for the test itself and the follow up feedback session)

Follow-up one to one video guidance

Should you wish to have specific and individual guidance, on any of the areas covered in the workshop, or help with preparation for an interview, then these are available as one to one coaching sessions. These would typically last 1-2 hrs.

The charge is **£120.00 for a 1hr session or £200.00 for 2 hrs.**

Discounted packages

One Month Support Package.

Up to **4 hrs** one-to-one on-line or phone support: **£350.00**
